

It has come to my attention the FCC is proposing to take priority over current FM translator service, which would affect hundreds and thousands of listeners to stations, such as K-LOVE on FM translators.

The impact this station has had on my life personally is immeasurable. 38 months ago, I was a broken soul, searching for something stable. The 9/11 occurred and I heard the news over K-LOVE, which I was grateful to be with some of God's people at that moment. Then following, a marriage that went haywire in 2003 -- it was KLOVE that really eased my pain. I give much credit to the music and message of K-LOVE by providing the stability and daily encouragement I needed, just to wait. My husband has now returned home, and is an avid listener and we are financial supporters of K-LOVE.

The effects this station has had on myself, my husband, our marriage, and the opportunity to sing praise with our children in the car is gratifying and glorifying our Father. Our children have a chance now to have more stability in their lives with two parents who listen.

Denver specifically needs K-LOVE. We are the most un-churched metropolitan city in the country! And if it is true here, I know it is true anywhere the FM Translators go, so it would greatly break the word of Hope, of Faith, of Encouragement -- the message of God through the works of K-LOVE. In fact, I think this station should be broadcasted in every city, town, rural, and mountainous area around the world! Including for our troops abroad.

K-LOVE serves a much broader community then just local, they think globally for the church of God. I challenge you, before you decide to implement this proposal, to listen to stations such as K-LOVE for 100 days -- then cast your vote.

Thank you for listening and God bless your decision,  
Cheryl R. McDonald
